The Declaration of Independence is generally regarded as one of the most famous documents in the history of the world. On June 10, 1776, the Continental Congress appointed a committee, consisting of Thomas Jefferson, Benjamin Franklin, John Adams, Roger Sherman and Robert R. Livingston to draft a Declaration of Independence.

Jefferson wrote out a rough draft of the Declaration, which was carefully revised by the committee and presented to Congress for adoption. After some further slight revisions by that body, it was adopted on July 4, 1776, at Philadelphia.

The parchment with the original signatures was deposited with the Department of State when the government was organized in 1789.

The original Declaration of Independence is now on public exhibition in the Library of Congress at Washington, D. C. It was transferred from the Department of State by direction of the late President Warren G. Harding.

# THE DECLARATION OF INDEPENDENCE

---

MADE BY THE ORIGINAL THIRTEEN STATES  
IN CONGRESS AT PHILADELPHIA

---

UNANIMOUSLY ADOPTED JULY 4, 1776

---

When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed, by their Creator, with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed, that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and institute new government, laying its foundation on such principles, and organizing its powers in such form as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established, should not be changed for light and transient causes; and accordingly all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security. Such has been the patient sufferance of these Colonies, and such is now the necessity which constrains them to alter their former

systems of government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute tyranny over these States. To prove this, let facts be submitted to a candid world.

He has refused his assent to laws, the most wholesome and necessary for the public good.

He has forbidden his governors to pass laws of immediate and pressing importance, unless suspended in their operation till his assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other laws for the accommodation of large districts of people, unless those people should relinquish the right of representation in the legislature, a right inestimable to them, and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved representative houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected, whereby the legislative powers, incapable of annihilation, have returned to the people at large for their exercise; the State remaining, in the meantime, exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these States; for that purpose obstructing the laws for naturalization of foreigners; refusing to pass others to encourage their migrations hither; and raising the conditions of new appropriations of lands.

He has obstructed the administration of justice by refusing his assent to laws for establishing judiciary powers.

He has made judges dependent on his will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of new offices, and sent hither swarms of officers to harass our people, and eat out their substance.

He has kept among us, in times of peace, standing armies, without the consent of our legislatures.

He has affected to render the military independent of and superior to the civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution and unacknowledged by our laws; giving his assent to their acts of pretended legislation:

For quartering large bodies of armed troops among us:

For protecting them, by a mock trial, from punishment for any murders which they should commit on the inhabitants of these States:

For cutting off our trade with all parts of the world:

For imposing taxes on us without our consent:

For depriving us, in many cases, of the benefits of trial by jury:

For transporting us beyond seas to be tried for pretended offenses:

For abolishing the free system of English laws in a neighboring province, establishing therein an arbitrary government, and enlarging its boundaries, so as to render it at once an example and fit instrument for introducing the same absolute rule into these colonies:

For taking away our charters, abolishing our most valuable laws, and altering fundamentally the forms of our governments:

For suspending our own legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated government here, by declaring us out of his protection, and waging war against us.

He has plundered our seas, ravaged our coasts, burnt our towns, and destroyed the lives of our people.

He is, at this time, transporting large armies of foreign mercenaries to complete the works of death, desolation, and tyranny, already begun, with circumstances of cruelty and perfidy, scarcely paralleled in the most barbarous ages, and totally unworthy the head of a civilized nation.

He has constrained our fellow citizens, taken captive on the high seas, to bear arms against their country, to become the executioners of their friends and brethren, or to fall themselves by their hands.

He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes, and conditions.

In every stage of these oppressions we have petitioned for redress in the most humble terms: our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant, is unfit to be the ruler of a free people.

Nor have we been wanting in attentions to our British brethren. We have warned them, from time to time, of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity which denounces our separation, and hold them, as we hold the rest of mankind, enemies in war, in peace friends.

We, therefore, the Representatives of the United States of America, in General Congress assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do in the name, and by authority of the good people of these Colonies, solemnly publish and declare, That these United Colonies, are, and of right ought to be, *free and independent States*; that they are absolved from all allegiance to the British crown, and that all political connexion between them and the State of Great Britain, is, and ought to be, totally dissolved; and that as *free and independent States*, they have full power to levy war, conclude peace, contract alliances, establish commerce, and to do all other acts and things which *independent States* may of right do. And for the support of this declaration, with a firm reliance on the protection of Divine

Providence we mutually pledge to each other our lives, our fortunes,  
and our sacred honour.

The United States Constitution is the oldest federal constitution in existence. It was so well framed that it has served as the basis for this government for a century and a half. Only once has it been seriously endangered, this being during the Civil War. Many of its principles have been adopted by other countries.

The Constitution was the outgrowth of a convention of delegates from the different states that met in Philadelphia in May, 1787, Rhode Island not being represented. George Washington presided over the convention, which lasted from May to September.

The Constitution was then submitted to the then existing states for ratification, with a provision that it should become effective when ratified by nine states. New Hampshire was the ninth state to ratify, June 21, 1788, and the Constitution went into effect in 1789.

The states ratified the Constitution in the following order: Delaware, Dec. 7; Pennsylvania, Dec. 12, and New Jersey, Dec. 18, 1787; Georgia, Jan. 2; Connecticut, Jan. 9; Massachusetts, Feb. 6; Maryland, Apr. 28; South Carolina, May 23; New Hampshire, June 21; Virginia, June 26, and New York, July 26, 1788; North Carolina, Nov. 21, 1789, and Rhode Island, May 29, 1790.

# CONSTITUTION OF THE UNITED STATES OF AMERICA

The Constitution originally consisted of a Preamble and seven Articles, and in that form was completed and signed at a convention of the States, Sept. 17, 1787. The Government under the Constitution was declared in effect on the first Wednesday in March, 1789.

## THE UNITED STATES

---

The United States is composed of forty-eight states, one district, and seven non-contiguous territories and possessions.

The republic originated in the rebellion of the British Colonies of North America, Canada excepted, in 1776, and in the Declaration of Independence, the thirteen colonies in revolt styled themselves "The United States of America."

The Canadian boundary line is 3,900 miles in length, the Mexican boundary line being 1,975 miles in length.

According to the 1940 Federal census, the first basic re-measurement of the land and water area of the United States since 1880 showed a total area of 3,022,387 square miles, consisting of 2,977,128 square miles land area, and 45,259 square miles inland water area.

The 1940 Federal census gave the United States, and all territorial possessions, a population of 150,621,231, Continental United States having 131,669,275; territorial possessions, excluding Philippine Islands, 2,595,956; Philippine Islands 16,356,000.

The Capitol of the United States is at Washington, D. C. The corner stone of the original building was laid on September 18, 1793 by President George Washington. The original building was finally completed in 1827, its cost, including the grading of grounds, alterations and repairs up to that year, having been \$2,433,844.13.

### Creation, date of admission, area and population

There is no specific form of procedure provided in the United States Constitution for the admission of new states to the Union. Different methods of admission have marked the addition of the thirty-five states to the original thirteen. For admission, however, certain conditions must exist. The community must be organized with a population in numbers and character capable of upholding self government and Congress is the final judge as to these requirements. The decisions of Congress, however, have frequently been influenced by party reasons, and in 1872 it was enacted that no state should be admitted thereafter unless it had the necessary population entitling it to at least one representative, according to a ratio of representation fixed. To gain admission, a petition is presented to Congress, which grants an enabling act if the request is favorably received. When all the terms of the enabling act have been complied with, Congress, by resolution, or the President, by proclamation, declares the new state admitted to the Union.

[ART.] 5<sup>th</sup>. Every individual has a natural and unalienable right to worship God according to the dictates of his own conscience, and reason; and no subject shall be hurt, molested, or restrained, in his person, liberty, or estate, for worshiping God in the manner and season most agreeable to the dictates of his own conscience; or for his religious profession, sentiments, or persuasion; provided he doth not disturb the public peace or disturb others in their religious worship.

*Provided notwithstanding*, that the several towns, parishes, bodies corporate, or religious societies, shall, at all times, have the exclusive right of electing their own public teachers, and of contracting with them for their support and maintenance. And no person, of any one particular religious sect or denomination, shall ever be compelled to pay towards the support of the teacher or teachers of another persuasion, sect, or denomination.

And every denomination of Christians, demeaning themselves quietly, and as good subjects of the state, shall be equally under the protection of the law: And no subordination of any one sect or denomination to another, shall ever be established by law.

And nothing herein shall be understood to affect any former contracts made for the support of the ministry; but all such contracts shall remain, and be in the same state as if this constitution had not been made.

# HISTORY OF NEW HAMPSHIRE

---

## GEOGRAPHICAL LOCATION

New Hampshire is situated the most northern of the thirteen original states and lies between latitude 42-40 and 45-18 north and longitude 70-37 and 72-37 west. It is about 180 miles long and 50 miles wide, although the extreme width is 93 miles.

It is bounded on the north by Quebec province in Canada, on the east by Maine and the Atlantic ocean, on the south by Massachusetts, and on the west by Vermont. The Connecticut River is the western boundary.

## "MOTHER OF RIVERS"

Geographies sometimes speak of the state as the "Mother of Rivers." Five of the great streams of New England originate in its granite hills. The Connecticut River rises in the northern part, and for nearly one hundred miles of its winding course hems the shores of the state with a "broad seam of silver." The Pemigewasset River starts in the Profile Lake in the Franconia mountains and joins the Winnepesaukee at Franklin to form the Merrimack, which at one time turned more spindles than any other river in the world. The Cocheco and Salmon Falls rivers join at Dover to form the Piscataqua. In addition, two of the principal rivers of Maine, the Androscoggin and the Saco, have their beginnings in northern New Hampshire.

New Hampshire has 1300 lakes or ponds and 40,000 miles of rivers and streams which provide year round fishing and recreation in scenic surroundings, as well as power for the State's many industries.

## "THE GRANITE STATE"

New Hampshire is commonly known as the Granite State, and of late years by some writers is called the Queen State—"Queen by right of her natural beauty; queen by her native hardy spirit; queen by her diversified industry; queen by reason of her motherhood of great men. She is enthroned on hills of granite, diademed with sparkling waters and sceptered with industry."

The state entertains annually over a million summer visitors, who resort in the mountain, lake and seashore scenery,—in fact it has been estimated that a million automobiles cross our borders annually! The soil is suitable for fruits, flowers and vegetables. The forests of pine, spruce and hard wood add beauty to the landscape and wealth to the land.

The White Mountains are the natural feature which has the widest fame. New Hampshire bodies of water cover one hundred and fifteen thousand acres and vary from small ponds to Lake Winnepesaukee, which is twenty-two miles long and eight miles wide.

New Hampshire's publicly-owned aerial tramway, the first erected to a mountain top in North America, is located in Franconia Notch near The Old Man of the Mountain. Its cars have carried 1,500,000 passengers in their eight-minute ascent of the 2022 feet to the top.

No state grows apples of finer flavor than come from the hillsides of New Hampshire. Horticultural shows have no better exhibits than are presented from towns in the southern part of this state, where the orchards have been sprayed and treated by the latest scientific methods. Strawberries, blueberries, peaches and products of the garden are grown in great quantities and shipped hundreds of miles.

New Hampshire is also famous for her products made from the sap of the maple tree.

Dairying is a large business and in recent years the quality of the herds has increased tenfold. There are 5,779,840 acres of land in the state, 1,960,061 acres being in farm land, with the number of farms estimated at 16,554, according to the 1940 farm census. There were over two and one-half million acres of timber land, which contained over thirty billion feet of merchantable timber, but the disastrous hurricane of 1938 has sadly depleted the standing timber in New Hampshire's granite hills.

It is estimated that every year more than four million dollars is permanently invested in the purchase of land and the construction of buildings in the rural districts. Nearly every town has some summer visitors. Winnepesaukee shores are lined with cottages and hotels; Sunapee has a summer population of over five thousand, who enjoy its beauties.

The state has a seaboard of about eighteen miles. Hampton and Rye beaches have been famous summer resorts since the days Whittier pitched his "tent on the beach." That salt waves of the Atlantic lap the sometimes sandy, sometimes rocky coast into one continuous pleasure ground, where surf bathing and scenic beauty enchant the visitor. In the early fall of 1915 a disastrous fire at Hampton Beach destroyed many of the hotels and places of business there, but the resort has since been rebuilt from the ruins until it is larger and more attractive than ever. The recreational area at Hampton Beach has greatly improved the appearance of that part of the coast. The state maintains a large public bath house and a parking area there. The erection of a sea wall in 1934 not only improved the property along the coast, but was a necessary measure against coast erosion.

Among New Hampshire's all-year, all-season recreation attractions, none are more popular than its winter sports. Mount Washington is

the highest mountain east of the Rockies and north of the Mason-Dixon Line. Its privately-owned cog railway was the first mountain climbing railway in the world.

New Hampshire has some of the finest ski terrain in the east where the sport may be enjoyed well into July and August. Its many lifts include the widely known Cranmore skimobile, operated all year, and Tuckerman, Cannon, Sunapee and Gilford slopes.

Portsmouth, the only sea city, has an historic past and a prosperous present with its large navy yard. New Castle is a place of romance and aesthetic beauty and adventure. A large part of the Isles of Shoals in Portsmouth harbor belongs to New Hampshire, with their cottages and hotels. Lobster fishermen find the Isles of Shoals and the New Hampshire coast favorable areas for taking this famous sea food. The state highways are as fine as any state can boast of and are kept in excellent driving condition the year round. New Hampshire is open to visitors, from the coast to the mountains, twelve months in the year.

### FISH AND GAME

In 1865 New Hampshire joined the vanguard of American science by establishing a fish and game department, the first one of its kind in New England. Since that date, some eighty odd years ago, the efforts of this department have been devoted to the propagation and conservation of fish and game.

In modern times the cultivation of fish and the protection of wild life have demanded the application of scientific methods quite as much as any other element of our life. It is a known fact that while European countries have found vast resources in their shore fisheries, the United States is by no means able to rely on her coast fisheries, and has thus been obliged to develop her inland waters to meet the needs that otherwise could have been met only by importation from other countries. Moreover, while Europe's supply is bound to lessen in time to come, our supply will continue to increase.

Today, New Hampshire's Fish & Game Department employs a balanced team of trained wildlife men, fish culturists, and law enforcement officers to maintain and increase the available supplies of her native species under the pressure of vastly increased demand. To do so means that every one of her waters and every bit of cover must be contributing its full share to the state's crop. Research personnel are constantly exploring new avenues to increase natural productivity, while evaluating the results of current practices.

Since World War II, a program of modernization and expansion of fish rearing facilities has more than doubled the annual output available for stocking. Beautiful new rearing stations which rank with any in the country for modern design and efficient operation have been built at Merrymeeting Lake, New Durham, at Summer Brook in Ossipee, and at Merrimack, between Manchester and Nashua. Five other stations at Colebrook, Twin Mountain, Warren, New Hampton, and Richmond have been completely reconditioned.

Fish and game is now recognized as a major factor in the recreation business which is one of New Hampshire's foremost sources of revenue. We can be justly proud of the effective teamwork between department personnel and the sportsmen of the state who are looking forward with the eyes of true conservationists to establishing the fish and wildlife species of our state on a secure footing for future years. Deer, grouse, black bear, snowshoe hares, landlocked salmon, togue, black bass, and several species of brook trout are only a few of the wild residents which are to be found in such plenty as to make sportsmen choose New Hampshire first.

### **"COME TO NEW HAMPSHIRE"**

New Hampshire believes in progress and development in every direction. It is the third most industrialized state in the Union and prizes itself on the quality and diversification of its products. New Hampshire is the home of the famous breed of poultry known as the "New Hampshires." She invites the whole world to visit her mountains, the "playground of America." Those seeking opportunity for profitable farming will do well to write for further information to the Commissioner of Agriculture, Concord, N. H.; sportsmen are invited to send for literature and advice to the Fish and Game Director, Concord, N. H.; those looking for business openings, either in manufacturing enterprises or in the retail field, should correspond with the New Hampshire Planning and Development Commission, Concord, N. H.

The Boston & Maine Railroad Publicity Bureau at Boston, Mass., The New Hampshire Information Bureau, Eastern Airlines Building, 10 Rockefeller Plaza, New York City, Storowton Village, Eastern States Exposition Grounds, West Springfield, Mass., the New Hampshire Manufacturers' Association and the New Hampshire Historical Society, Concord, N. H., are other sources from which information not given in this volume may be secured.

### **NEW HAMPSHIRE**

New Hampshire was one of the thirteen original colonies which revolted from English rule and founded the United States of America, one hundred and seventy-four years ago. When this continent was settled, New Hampshire was a part of a grant made in 1620 by James I, King of England, to the Plymouth Company, a commercial organization formed to develop the "new world."

It was the first of the original states to declare its independence and to adopt a constitution. As the ninth and deciding state to ratify the Federal Constitution it may be said to have "created" the United States.

The name of New Hampshire was first given to this section of the country in 1629, when the Plymouth Company gave a grant of part of its colonial possessions to Captain John Mason, a gentleman of Hampshire in England. New Hampshire in those days was roughly described as "that part of the main land of New England"

between the Merrimack and Piscataqua rivers. It was more than a hundred years before the boundaries of the province of New Hampshire were definitely fixed, but once settled upon, in 1740 on the south and east and in 1764 on the west, these lines have remained practically intact to this day. There was, however, a long-standing dispute between New Hampshire and Vermont over the boundary line, a difference of opinion aggravated by the changing bed of the Connecticut River, which was definitely settled in 1936 thus ending a long legal dispute that lasted from 1915 to the time the markers were completed in August of 1936. The New Hampshire-Vermont boundary is described as "a line beginning at the apex of the granite monument which marks the southeast corner of Vermont and the southwest corner of New Hampshire, erected in 1897 under the supervision of commissioners of the two states, at low water mark on the west side of the Connecticut River and extending thence northerly along the western side of the river at low water mark, as the same is or would be if unaffected by improvements on the river, to the southerly line of the town of Pittsburg, New Hampshire. Such low water mark is hereby defined as the line drawn at the point to which the river recedes at its lowest stage, without reference to, and unaffected by extreme droughts, but subject to such changes as may hereafter be effected by erosion or accretion."

In 1622 a grant of part of New Hampshire was given by patent to Captain Mason and a partner, Sir Ferdinand Gorges, by the council of Plymouth. Robert Gorges was appointed the first governor, and he came to America two years later and assumed his office. Five years later the patent of Laconia was granted to a company of traders, but the extent of the company's jurisdiction was not definitely settled upon.

In 1629, the same year that the Laconian patent was granted, Captain Mason and his partner reached an agreement whereby Captain Mason took over the whole of New Hampshire and relinquished to his partner his rights on territory in Maine east of the Piscataqua River. The Council of Plymouth confirmed this division of territory.

In 1635 the Council of Plymouth re-issued its patent to Mason and then dissolved. A document purporting to be a charter directly from the king of England to Captain Mason, issued that same year, giving the captain the New Hampshire territory then held by him, is in existence, but whether or not this document is authentic is a question among historians.

The first settlement in New Hampshire was in Rye (then called "Little Harbor" and afterwards called Portsmouth,) in 1623, the second settlement at Dover in 1628, the third at Exeter in 1638, and the fourth at Hampton in 1639. The objects of these adventurers into the primitive wilderness of New Hampshire were to clear the land for cultivation, to seek for the mineral wealth which was supposed to exist, to establish and carry on fisheries on the rivers, which teemed with fish, and along the coast, and to barter with the native Indian tribes of the locality.

The Massachusetts colonists had come to America to found settlements where they might have freedom in religious worship—a freedom which, however, they were unwilling to grant to any not of their faith. It was a day when religious opinions were paramount, and politics and legislation were subordinate, when creeds claimed precedence over rights. Unless a person subscribed unreservedly to the established creed he was a heretic. In such a class were the Quakers, Roger Williams, Anne Hutchinson and her brother-in-law, Rev. John Wheelwright, a man of superior endowments and high culture, who, disenfranchised and banished from Massachusetts, led forty of his exiled adherents into the wilderness of New Hampshire and settled Exeter in July, 1638.

Underlying these early settlements was a deep religious conviction, perhaps not so radical as in Massachusetts, but still present, which again manifests itself when the people of the state, while formulating a frame of government, gave the religious idea so prominent a place in the Bill of Rights.

### CAPTAIN MASON'S EFFORTS

Charles I, for political and religious reasons, had granted Mason extraordinary rights and privileges. Mason had been not only a faithful adherent of the king, but also a devout and zealous supporter of the Church of England. It was inevitable therefore that his ideas of government and religion should be distasteful to the Massachusetts colonists so near at hand.

Mason's colony was, however, solely a business venture. He established no government over it. The settlements were under the immediate direction of agents commissioned by and answerable to the proprietor. They were ruled as a body of workmen are ruled—just as the Hudson Bay Company governs through its factors.

Mason died in 1635, and while his early efforts to occupy the lands allotted to him were persevering and meritorious, the founding of colonies was a matter requiring the expenditure of large sums of money, of which neither Mason nor his descendants had command, and his plans with regard to the colonization of New Hampshire failed of execution.

There was no provincial government in those days, but each town maintained its own government. Religious differences prevented as years went on the development of a central government, and in 1641 the New Hampshire towns resigned their jurisdiction to Massachusetts and became a part of Norfolk county of that province.

### BECOMES ROYAL PROVINCE, 1679

After thirty-eight years as a part of Massachusetts, New Hampshire became a province of itself in 1679 by an order of the king of England, which was preceded by a decree of the English courts to the effect that Massachusetts had no right to extend its jurisdiction over New Hampshire.

King Charles II issued a commission to John Cutts of Portsmouth in that year to be president of the province and to govern it under the king, with aid of a council and assembly. This was the real beginning of constitutional government in this territory, which has continued without serious interruption to the present time.

The commission of the king reserved to him the right to veto all the acts of the provincial legislature and the right to dissolve the legislature at his pleasure. The New Hampshire settlers did not like this arrangement as well as they did the jurisdiction of Massachusetts.

The governors sent to the province by the king proved to be avaricious tyrants. Even the Lords of Trade in England would not uphold them in some of their actions, and time and again, at the instigation of the heirs of Captain Mason (the Masonian Proprietors, so called) the royal governors tried to force the people to surrender their titles to lands and take leases from the Masonian Proprietors.

### THE MASONIAN CONTROVERSY

In 1690 the people, mindful of their former pleasant relations with Massachusetts, resolved on a second union with their old ally, and sent a petition to William and Mary of England.

Through the influence of Samuel Allen, who had bought out the interests of the Mason heirs, the king failed to grant this request, and the union, which had been accepted by Massachusetts, was short lived.

Allen was appointed governor and his son-in-law became his deputy. In this way were the claims of Mason's heirs, so abhorrent to the people, continued until the death of Allen's son early in the reign of Queen Anne. These suits and claims were finally settled in 1787 by compromise.

"There is probably no controversy on record that involved so many parties, continued so many years, and created so many law-suits as Mason's claim to New Hampshire. Kings and queens, nobles and plebeians, proprietors and counsellors, courts and legislatures for nearly a century were constantly agitating the question of the right of soil of this wild, rough and rocky state. Generation after generation of claimants died, but the controversy lived. Judges of the king's bench and of the state courts again and again decided cases at issue, but still the spirits which avarice had conjured up would not down at their bidding. The people outlived their prosecutors and the fire went out for want of fuel." (Sanborn, History of New Hampshire.)

For forty-three years, from 1698 until 1741, New Hampshire and Massachusetts were under the same governor, although each province maintained its identity. At the expiration of this period a new arrangement was made by which New Hampshire had one of its own sons, Benning Wentworth, appointed governor, and the provincial legislature was given increased authority.

He served for twenty-six years during an era of good feeling such as the colony had never before known. He was a benefactor of Moor's Indian School, which under his successor was chartered as Dartmouth College.

He was succeeded by his nephew, John Wentworth, in 1767 who also was well received by the people and by the assembly. As governor, he granted a charter to Dartmouth College and endowed it with forty-five thousand acres of land.

"He was universally beloved by the people. He had uniformly endeavored to promote the general public welfare by encouraging commerce, constructing highways, establishing courts and fostering learning." (Sanborn.)

But in 1774, as representative of King George III, he assisted General Gage in his work on fortifications in Boston. This brought down upon him the intense dislike of the revolutionary party and he fled from the state to Boston, where he might have the protection of General Gage. Still retaining the title of governor, he returned for a time to Fort William and Mary, from which place he issued a proclamation dissolving the assembly and shortly afterwards set sail for England. He was the last of royal governors.

Before Governor Wentworth quit, the provincial legislature took official action in regard to the revolution, and a committee of safety was organized. This committee summoned a revolutionary assembly, which met in Exeter and was known as the First Provincial Congress. Four other congresses of similar character followed.

The last meeting of the old provincial assembly took place in 1775. The same year the American Continental Congress gave the New Hampshire revolutionists the right to set up a new government.

## THE REVOLUTIONARY WAR

About one-half of the soldiers at the Battle of Bunker Hill were New Hampshire troops under the command of such leaders as John Stark, James Reid, and Enoch Poor. Throughout the struggle for independence the revolutionary state government, under the direction of the committee of safety, of which Meshech Weare was president, furnished troops in large numbers.

General John Sullivan distinguished himself on many battlefields, and the exploits of General Stark at Bennington are incidents of renown. It was largely the New Hampshire forces which brought about the surrender of Burgoyne.

With the close of the Revolution this state entered actively into the organization of the federal government. John Langdon, one of the early governors, was the first president of the United States senate, and was nominated for vice-president of the nation.

In 1780 a petition by the slaves for freedom was circulated in this state. Dartmouth College began to develop about that time and the legislature gave the college the right to raise money by a lottery. In 1792 the first bank was chartered to do business, and the year

before, the State Medical Society was founded, with Governor Joseph Bartlett at its head. In 1796 the first turnpike and state highway from Concord to Portsmouth was chartered.

## SECOND WAR WITH ENGLAND

When the second war with England broke out in 1812 Governor John Langdon drafted thirty-five hundred men at the request of the president. The state militia at that time was in its most flourishing condition and consisted of three divisions, six brigades and thirty-seven regiments.

William Plumer succeeded to the governorship before hostilities had advanced, and he organized the first regiment of New Hampshire volunteers, which later became part of the regular army. In 1813 there was a political overturn, in which former Governor John T. Gilman defeated Governor Plumer for re-election. Governor Gilman was head of the Federalist party in the state, and its return to power was celebrated by abolishing the courts and turning out the judges and other officers. The Federalists were opposed to the war, but all the people, regardless of party, became afraid of English invasion and were solid in defense of the state. The inhabitants of Portsmouth in particular were frightened on several occasions of a British landing and attack, and Governor Gilman summoned the entire militia to the defense of that city.

A native of New Hampshire, Lewis Cass of Exeter, achieved military distinction in Michigan. He was later a senator from that state, candidate for the presidency in 1848 and the secretary of state under Buchanan. In 1814 a secessionary gathering was held at Hartford, Connecticut, at which delegates were present from most of the New England states. Governor Gilman was blocked in his efforts to secure New Hampshire representation at the convention by three of his councilors, who were Democrats.

## DARTMOUTH "UNIVERSITY"

In 1815 a very destructive tempest occurred. That same year there was a political tempest, when former Governor Plumer was returned to power and the judges and office-holders were again addressed out of office. The state house was located on its present site during the 1815 administration. A controversy arose over Dartmouth College, which for several years was a paramount issue in state politics. The legislature changed the name to Dartmouth University and reorganized the government of the institution, but the United States Supreme Court ruled that the legislature could not overturn a charter that had been granted by the king.

In 1817 President James Monroe visited the state, and there was an era of political good feeling which lasted for many years. In 1819 the use of the power-loom was commenced at the Amoskeag Mills in Manchester, and from that time these mills developed until they became the largest in the world. A most destructive freshet in

1824 destroyed the bridges over the Merrimack river and damaged a good deal of property.

General Lafayette visited the state in 1824 and was received with the greatest enthusiasm. In 1833 President Andrew Jackson rode on horseback into Concord, accompanied by his vice-president, Martin Van Buren, his secretary of war, Lewis Cass, who was a native of Exeter; and his secretary of the navy, Levi Woodbury of Portsmouth. Partisan feeling was bitter in those days and the celebration was indulged in principally by Democrats.

### DEVELOPMENT OF INDUSTRY

In 1835 and subsequent years railroads were chartered and constructed in all parts of the state and a period of great commercial development was inaugurated. This led to the growth of several towns on the railroad into cities. Chief among these was Manchester, which had a fortunate location at Amoskeag Falls, and in 1846 it was incorporated as a city.

The war with Mexico broke out that year, and although there was no great enthusiasm for the war in New Hampshire, many sons of the state, such as Franklin Pierce, John Bedell and Dr. John D. Walker, took a prominent part in the military activities. After the war many other young men emigrated to the fertile prairies of the West.

In 1850 the entire expenses of the legislative, executive and judicial departments of the state government amounted to only \$36,000.

During that year a convention was held to revise the Constitution, and Franklin Pierce was its president. Two years later he was elected president of the United States, receiving the support of all but four states in the Union.

Before the Pierce administration was through the Democratic party lost control of New Hampshire. In 1855 the American or Know-Nothing party elected Ralph Metcalf governor and John P. Hale senator. From this party there developed the Republican organization, which was in power through the Civil War and for nearly twenty years after. St. Paul's School in Concord was opened in 1856 and is one of the most select preparatory institutions in the country.

### THE CIVIL WAR

In 1861 the Civil War broke out. During the first year of the war New Hampshire sent eight regiments of the infantry to the front, and during the second year nine more, and in 1864 still another. Altogether about thirty-nine thousand men went from this state to fight for the preservation of the union. Nineteen hundred were killed in action or died of wounds, twenty-five hundred died of disease and two hundred and eighty-five were missing. About sixteen hundred men re-enlisted after their first term of service.

In 1866 a railroad was built up Mount Washington. The following year the department of public instruction was established and

from that time the state has enjoyed universal common school education. In 1874 the Democratic party obtained control of all branches of the government for the first time since the war, and there was a complete overturn in offices. In 1878 there was a revision of the laws of the state, the new prison was built, and the militia was reorganized. Biennial elections were substituted for annual elections by an amendment to the Constitution that year. In 1887 there took place a very bitter railroad struggle in the legislature between the Concord railroad and the Boston & Maine railroad. This was followed by an organization of the Boston & Maine system throughout northern New England on a basis of leases, the New Hampshire railroads all leasing to the Boston & Maine. An attempt to reorganize the railroad by modifying or breaking the leases in 1915 and 1916 failed, and in the latter year the road went into receivership.

The history of the state since 1888 is within the memory of the generation now living and to recite it would be beyond the scope of this legislative manual, which is designed more to preserve facts concerning the early days of the state's history. For the past fifty years New Hampshire has grown in every way. Her industries have flourished, her population has increased, her churches, schools, and colleges have expanded, and her attractions as a summer resort have become known to all the world.

## THE STATE HOUSE

The seat of government is at the state house in Concord and has been for over 135 years although the present capitol building is only 133 years old and has been twice remodelled. Twice have strenuous efforts been made to remove the capital to Manchester, the largest city in the state.

During the Revolutionary War the seat of government was at Exeter and all the sessions of the provincial congress or convention and the colonial house of representatives were held in that academic town. The first six sessions of the state legislature assembled at Exeter also. In 1777 the legislature met at Portsmouth for a change and again in 1780, but all the other meetings took place at Exeter until 1782, when Concord became the capital. From then until 1807 the legislature met at various places, including Concord, Exeter, Portsmouth, Hopkinton, Charlestown, Dover and Amherst. Concord sessions in those days and in the later period from 1807 to 1819 took place in the old town house that stood on the site of the Merrimack county building of today.

The state house was built in 1816 to 1819 and cost \$82,000. On Tuesday, September 24, 1816, the corner stone was laid. The building was completed, and the legislature first convened in it, in June, 1819. The lot of land, consisting of about two acres, was given by the town and the stone for the building was taken out of "Rattlesnake Hill" and dressed by convicts at the state prison. At the first

legislature that sat in it there were twelve senators and one hundred and ninety-two representatives.

During the Civil War the state house was too small to accommodate the legislature and officials. Manchester offered to build a new one to cost \$500,000 and give it to the state for the honor of becoming the seat of government and one of the greatest and closest battles in the history of the legislature was fought over this proposition. Manchester was defeated and instead of moving, the state decided to enlarge and remodel the old building, which was done in 1864-66.

The building was remodeled after the architecture of the Hotel Des Invalides in Paris and from that day to this it has been regarded as one of the most meritorious structures from an architectural viewpoint that there is in the country. The government outgrew the building again in 1909 so that an addition was built on, which placed the state house in its present form. Before the addition was made Manchester made its second attempt to become the capital by offering \$1,000,000 to build a new building. The struggle between the two cities was fought all over again with the same result.

The cost of the first remodeling of the building was about \$200,000, and of the second, \$400,000.

One of the interesting attractions in the state house is the gallery of portraits in the principal offices and corridors. These portraits are of famous sons of the state, including the heroes of civil and military life, former governors, senators, secretaries of state and others.

Another noted attraction is the hall of flags in the foyer of the state house. Here are displayed many of the old provincial banners and the regimental colors of some of New Hampshire's finest. Some of these old flags were actually carried in decisive battles on the bloody fields of a hard-won independence and are an integral part of New Hampshire's interesting background.

By 1937, with many of the state's large and important departments scattered over the city of Concord in privately-owned buildings, it became increasingly evident that additional offices were a growing necessity. In the past two decades, state and federal government had grown by leaps and bounds and once again the state house was no longer adequate to house its rapidly growing and increasing family.

Governor Francis Parnell Murphy, in his message to the incoming legislature, on January 7, 1937, recommended the construction of a state office building adjacent to the state house, pointing out that the constantly mounting cost of rentals for outside space would go far towards defraying carrying charges and amortizing bonds for a new structure. He stressed the increase in efficiency of the departments and the reduction in costs of operation with the state government under one roof, so to speak, whereas many of the departments were fully half a mile away from the state house at that time. Furthermore, the general public, seeking contact with the various branches of state government, would find it decidedly more con-

venient to find their government all in one place rather than so widely scattered and so difficult to locate.

On July 21, 1937, the legislature appropriated \$600,000 to be expended, together with such sums as might be received from the federal government, for the erection of a state house annex. The governor and council commissioned Wells, Hudson and Granger, Architects of Hanover, New Hampshire, to draw plans and specifications for a state office building or annex.

An application for federal assistance was immediately made by Governor Murphy, but the federal public works administration had already allocated all grants for aid on such building projects and it looked doubtful that New Hampshire would receive an appropriation although the application was pending. The project was dormant until early in 1938 when Governor Murphy again made personal appeal for assistance when it became known that additional appropriations had been granted for the federal works building program.

By extraordinary good fortune this project became number one on the list for the entire nation and, in June, 1938, New Hampshire received a grant of \$288,000. Later a credit on the sums invested in the building site was granted, making a total grant of \$327,000.

The corner stone for this newest addition to the state house was laid by Governor Murphy on October 25, 1938 and the building was completed on October 27, 1939. The first department to take up quarters in the new annex being the New Hampshire state police department. The building was officially dedicated on January 18, 1940. It houses twenty-one separate department offices with upward of 450 employees and is connected by an underground tunnel with the state house.

As parts of Massachusetts Bay Colony (1641-3 to 1679) the towns of Hampton, Exeter, Dover, and Strawberry Bank were comprised within Norfolk county, which was one of the four shires, viz., Essex, Middlesex, Suffolk, and Norfolk, into which the Bay Colony was separated from "3d month, 10th day 1643."

The Province of New Hampshire agitated the subject of county establishment for years previous to decisive action in 1769, one plan, which came to nought in 1755, being to make two counties, Portsmouth and Cumberland, with the Merrimack as the dividing line.

The act which passed April 29, 1769, contained the provision that it should not take effect until "his majesty's royal approbation thereof be known," and the further provision that "said counties of Strafford and Grafton shall be for the present annexed to and deemed and taken as parts and members of the County of Rockingham \* \* \* until the governor by and with the advice of the council shall declare them respectively sufficient for the exercise of their respective jurisdictions and no longer." Governor John Wentworth, in a message to the house of representatives in March, 1771, said "It gives me great pleasure to inform you that his majesty has been graciously pleased to approve and confirm the act for dividing this Province into counties." The existence of Rockingham, Hillsborough, and Cheshire counties began on March 19, 1771, Strafford and Grafton having received authority to exercise and en-

joy county privileges, as set forth in Governor John Wentworth's message to the house on May 28, 1772, their separation from Rockingham became effective on June 5, 1773, by the terms of the act of February 5, 1773, "fixing the times and places for holding courts in \* \* \* Grafton county," four months being allowed for the building of "prisons, court houses," etc.

### FIRST DIVISION

### THE COUNTIES

When New Hampshire was a part of the colony of Massachusetts Bay, from 1641 to 1679, the principal towns of New Hampshire were part of Norfolk county in Massachusetts. New Hampshire did not divide herself into counties, however, until 1769, six years before the Revolution. In that year the five counties of Rockingham, Strafford, Hillsborough, Cheshire and Grafton were established.

Coos was the sixth county, established in 1803. Merrimack was established in 1823, Sullivan in 1827, and Belknap and Carroll in 1840. Since the original division into counties the legislature on twenty occasions has amended and changed the layout. The following is a list of counties in their customary order, giving the name of each, the date of its establishment and the place of the county seat.

Name	Date	County Seat
Rockingham	1769	Exeter
Strafford	1769	Dover
Belknap	1840	Laconia
Carroll	1840	Ossipee
Merrimack	1823	Concord
Hillsborough	1769	Nashua
Cheshire	1769	Keene
Sullivan	1827	Newport
Grafton	1769	Haverhill
Coos	1803	Lancaster

**Rockingham** county is in the southeastern part of the state and was the first part settled. It was named for the Marquis of Rockingham and includes the city of Portsmouth and thirty-six towns.

**Strafford** county is in the eastern part of the state north of Rockingham county. It was named for the Earl of Strafford and includes three cities and ten towns.

**Belknap** county takes in the lake region in the central part of the state. It was named for Dr. Jeremy Belknap, who wrote a history of the state, and includes the city of Laconia and ten towns.

**Carroll** county is in the east central part of the state and is sparsely settled. It was named for Charles Carroll of Carrollton, Virginia, who signed the Declaration of Independence, and includes eighteen towns.

**Merrimack** county is in the Merrimack river region in the south central part of the state. It was named for the river and includes two cities and twenty-five towns.

**Hillsborough** county is in south central part of the state and is the most thickly populated. It was named for the Earl of Hillsborough, a councilor of King George III, and includes two cities and twenty-nine towns.

**Cheshire** county is in the southwestern corner of the state, and at the time the state government was organized there was some

controversy over whether the territory now embraced in the county belonged to New Hampshire or Vermont. It was named for Cheshire county in England and includes the city of Keene and twenty-two towns.

**Sullivan** county is in the west central part of the state, and like Cheshire county, was embroiled in early boundary disputes. It was named for John Sullivan, a general in the Revolutionary army and later governor, and includes the city of Claremont and fourteen towns.

**Grafton** county is in the northwestern part of the state and large parts of it are sparsely settled. It was named for an English nobleman and includes thirty-nine towns.

**Coos** county is in the northern part of the state and is the largest county. It was named after an Indian word meaning "crooked" and was so called on account of the bend in the Connecticut river. It has an area of about a million acres and includes the city of Berlin and twenty-one towns.

## THE CITIES

**Berlin** was granted in 1771 to Sir William Mayne and others and named "Maynesborough" in honor of the grantee. The first settlement was made in 1821 by William Sessions. In 1829 the town was incorporated and the name changed to Berlin after the capitol of Germany. In 1897 it became a city and is the most northern city in the state. In 1902 an electric railroad was built to Gorham. Coos county, second congressional, first councilor and first senatorial districts.

**Claremont** was granted in 1764 to Josiah Willard of Winchester and sixty-eight others. Shares were reserved for Governor Benning Wentworth, the Church of England, the first minister, each school and the propagation of the gospel, and all the white pine trees were reserved for the King's Navy. Three of the grantees settled there, Samuel Ashley and his two sons, Samuel Ashley, Jr., and Oliver Ashley. Doctor William Sumner and his brother, Benjamin Sumner, who were respectively the father and uncle of Clement Sumner, another grantee, were among the first settlers. The first meeting of the proprietors was held in Winchester in 1767 and the second in Claremont later the same year. A tract of five hundred acres was laid out as "the governor's farm," and forty acres were given to William Porter for doing settlement duty. On their arrival in Claremont the proprietors found two "squatters," Moses Spofford and David Lynde, who are said to have settled as early as 1762, and in 1763 was born in a log cabin Elijah Spofford, the first white child in town. In 1767 Benjamin Tyler came from Connecticut and built a mill on the Sugar river. Later he brought ore from Charlestown and started a forge and smelting works, and later still built a flax mill. In 1813 Asa Meacham built the first woolen mill in that section. In 1810 the first Merino sheep ever imported into this country were brought by William Jarvis, consul to Spain, and introduced into Claremont by his kinsman, Dr. Leonard Jarvis. Part of Unity was annexed in 1828. Claremont became a city by act of the 1947 Legislature. Sullivan county, second congressional, fifth councilor and eighth senatorial districts.

**Concord** was originally known as "Penacook" and was granted by the Massachusetts Colony in 1659 to Richard Waldron and others. It was regranted by the same authority in 1725 to Ebenezer Eastman and others, and he was the first settler in 1727. The town was incorporated in 1733 by Massachusetts and the name changed to "Rumford." It was reincorporated in 1765 by New Hampshire and the name changed to Concord. There was a long standing dispute between New Hampshire's grant of 1727 and the Massachusetts grant, which the king settled in 1762 in favor of "Rumford." Parts of Canterbury and Loudon were annexed in 1784 and part of Bow

in 1804. Concord became the seat of government about 1800. The first state capitol was built in 1816 and remodeled in 1865, and the legislature has met in it since 1819. Concord became a city in 1853. Part of Bow was annexed in 1856. Merrimack county, second congressional, fifth councilor and seventh, ninth and fifteenth senatorial districts.

**Dover** was settled in 1623 and was originally called "Hilton's Point" from the name of one of the first settlers, Edward Hilton. Later the name "Northam" was given it, and finally Dover, after an English town. The settlement at the falls of the river, now the compact part of the city, was called "Cocheco," an Indian word meaning foaming water. Dover suffered severely at the hands of the Indians through its early history, and in 1689, when Major Richard Waldron was in command of the militia, became the victim of a massacre which nearly destroyed the settlement. In 1713 Newington was set off as a parish; in 1729, Somersworth; in 1732, Durham; and in 1755, Madbury. In 1792 the legislature met here. Dover became a city in 1855. Part of Rollinsford was annexed in 1879. Strafford county, first congressional, second councilor and twenty-first senatorial districts.

**Franklin** was incorporated in 1828 from parts of Andover, Salisbury, Northfield and Sanbornton and was named in honor of Benjamin Franklin. The first settlers were John Webster and Ezekiel Webster in 1759. Part of Franklin was annexed to Salisbury in 1869. It became a city in 1895, and is the smallest city in the state. Merrimack county, second congressional, fifth councilor and seventh senatorial districts.

**Keene** was granted in 1733 by the Massachusetts colony and named "Upper Ashuelot." Early settlements were made, which were abandoned in 1746 on account of Indian raids, and the first permanent settlements were in 1750. The town was incorporated in 1753 and the name changed to Keene in honor of Sir Benjamin Keene. The northeastern part of the town was put into the incorporation of Sullivan in 1787 and another part, together with parts of Nelson and Marlborough, went to make up the incorporation of Roxbury in 1812. In the same year part of Swanzeey was annexed to Keene. In 1794 part of Keene was annexed to Sullivan. In 1865 Keene refused to accept a city charter, but in 1873 accepted one. Cheshire county, second congressional, fourth councilor and tenth senatorial districts.

**Laconia** was set off from Meredith in 1855 and incorporated. Part of Gilford was annexed in 1874 and part of Laconia annexed to Gilford two years later. It became a city in 1893. Belknap county, first congressional, fifth councilor and sixth senatorial districts.

**Manchester** was originally known as "Harrytown" or "Old Harry Town." The place was granted by the Masonian Proprietors in 1735 to the "Snow-shoe men" of Captain William Tyng and the name changed to "Tyngs Town." In 1751 it was incorporated and the name changed to "Derryfield." The first town meeting was held in the house of John Hall that same year. In 1795 a gore of land was annexed on the north side. In 1810 the name was changed to Manchester, after the cotton center of England. In 1846 it became a city and is now the largest city in the state. In 1853 the village of "Amoskeag" was severed from Goffstown and annexed, and the village of "Squog" from Bedford, so that Manchester now takes in territory on both sides of the Merrimack river. Attempts to annex more territory from Bedford, Goffstown and Hooksett in the legislature of 1915 were unsuccessful. Efforts to make this the capital were unsuccessful in 1863 and in 1907. Hillsborough county, first congressional, third councilor and sixteenth, seventeenth, eighteenth, nineteenth and twenty-second senatorial districts.

**Nashua** was granted in 1673 and named "Dunstable" or "Old Dunstable," and a charter was obtained from Massachusetts. In 1739 part of "Dunstable" was set off and made into "West Parish of Dunstable," which later became Hollis. In 1741 the boundary between New Hampshire and Massachusetts was established, so that it divided "Dunstable" very nearly in the middle. In 1746 the New Hampshire part of "Dunstable" was incorporated. In 1763 part of the town, known as "One Pine Hill," was annexed to Hollis, and in 1773 additional territory was annexed to the same town. In 1825 mills were built in "Dunstable," which made it an industrial center, and in 1835 the Boston & Lowell railroad went into operation. The name was changed to Nashua in 1836. Part of the town was set off in 1842 and incorporated into "Nashville," but in 1853 these two towns were reunited and made into the city of Nashua. Hillsborough county, second congressional, fourth councilor and twelfth and thirteenth senatorial districts.

**Portsmouth** was settled in 1623 and is one of the oldest cities in the country. In 1631 the "Council of Plymouth" granted the place as a township and named it "Piscataqua," which later was changed to "Strawberry Bank." In 1653 the general court of Massachusetts incorporated it and changed the name to Portsmouth after an English city. In 1693 part of Portsmouth was set off and incorporated into Newcastle. In 1704 another part was set off and incorporated into Greenland, and in 1721 more territory was severed and annexed to Greenland. In 1726 part of Portsmouth, together with other territory, was incorporated into Rye. In 1821 part of Newington was annexed to Portsmouth. Portsmouth became a city in 1849. In 1905 the envoys of Russia and Japan met in this city

and signed the Treaty of Portsmouth, which brought an end to the Russian-Japanese war. This city has a navy yard, large breweries, and many industries. Its harbor is one of the best on the coast, with a twelve-mile channel and big shipping facilities by rail and water. Rockingham county, first congressional, second councilor and twenty-fourth senatorial districts.

**Rochester** was incorporated in 1722 and included what are now Farmington and Milton. The first settlements were made in 1728 by Captain Timothy Roberts and others, but Indian depredations prevented permanent settlement until about 1760. One of the first settlers in 1728 was Benjamin Richards, who soon left Rochester and settled what is now Atkinson. In 1798 the western part of the town was set off and incorporated into Farmington. In 1802 another part was set off and incorporated into Milton. In 1846 part of Rochester was annexed to Barrington. It became a city in 1891. Rochester was the home of John P. The

town was surveyed originally as five miles square, divided into ten ranges of twenty lots of land each. Each lot was 160 by 80 rods. In 1762 the town was incorporated and the name changed to Wilton after an English town. In 1768 the tenth range of the town was taken to help make the incorporation of Temple. Ancestors of Reverend Lyman Abbott of New York City, a famous editor and preacher, lived in Wilton as early as 1765, one member of the family inventing a machine for making starch in 1811 and conducting a business in Wilton. The Masonian Proprietors at an unknown date annexed part of Lyndeborough to Wilton. In 1869 a freshet carried away every bridge in town, with mill and dams, and did a damage of \$150,000. **Winchester** was granted in 1733 by the Massachusetts Colony to Josiah Willard and others, and was first called "Earlington." Later, for some cause yet undiscovered, the name was changed to "Arlington," which later was changed to "Winchester," after an English city, from which some of the ancestors of the grantees are said to have come. As originally granted, the township was of the contents of six miles square, and it was shaped like the block letter L, and "lay to the eastward and northward of Northfield." Its southeastern corner was established practically as it now is, while its northwestern corner was at the Connecticut river, where Brattleboro, Vt., now is, and at the present corner of Hinsdale and Chesterfield at this point. In 1744 "the New Province line" was established between Massachusetts and New Hampshire. This line severed from Winchester about two thousand acres, which later became a part of Warwick, Mass., and divided the township of Northfield nearly in the middle, leaving a portion in each province. In 1753 New Hampshire granted to Josiah Willard and his associates all that territory lying between Winchester's east line and the Connecticut river, under the name of Winchester, with the proviso that the township so incorporated might be divided. This provision was promptly (in the same year) acted upon; and upon the petition of Col. Ebenezer Hinsdale and others the township of Hinsdale was set off. The southwesterly corner of Winchester was fixed at a point in the New Province line eighty rods eastwardly from the Connecticut river, and thence Winchester's westerly line ran due north, "by the needle," till it intersected the original east and west line on the north boundary. By this, Winchester received a large portion of the old Northfield grant on its southwest corner and lost a considerable area on its northwesterly border. This allotment of territory continued unchanged for ninety-seven years. In 1850 a small triangular corner was taken from the northwest corner of Richmond and annexed to Winchester. Cheshire county, second congressional, fourth councilor and eleventh senatorial districts.

The exact location is not known, but it was on the shore of what is now Cobbett's Pond. The first settlement was made about 1720. John Waddell occupied the first house. David Gregg and Alexander McCoy settled the following year. The line between Windham and Salem was established in 1752, part of Windham being annexed to Salem. Benning Wentworth, the eldest of fourteen children of Lieutenant-Governor John Wentworth, was born in Portsmouth, July 24, 1696. He was governor of the province under two commissions from Kings George II and George III. His administration was the longest in the history of the province and extended from December 15, 1741, to August 11, 1766. During his administration there were French and Indian wars, and while the people of the province performed their part loyally there was much jealousy and lack of harmony between the governor, as the representative of the crown, and the Assembly, as representative of the people. After the establishment of peace in 1762 the condition of the province was more prosperous and many new townships were

settled. But a few years later relations with the mother country became strained. It was alleged that the governor was lax in reporting matters to the home government and he was in disfavor in England. Before he could be removed, however, he took advantage of the opportunity to resign and his nephew, John Wentworth, was appointed his successor. # HOUSE OF REPRESENTATIVES, 1789—1947

Under the constitutional apportionment which provided for a house of representatives in congress, New Hampshire was allotted three seats. The national census of 1790 (first census) increased this to four, the second census of 1800 to five and the third census of 1810 to six seats. The census of 1830 reduced it to five, that of 1840 to four and that of 1850 to three. The census of 1870 reduced it to two, but the seat taken away was restored until the next census of 1880, since when the state has had two representatives.

### Revolutionary Councilors, 1776—84

Article 60 of the second part of the constitution provides for an executive council of five men to advise and act with the governor. Before the constitution there was a council both under the temporary constitution of the Revolution and under the provincial government. Since 1913 councilors have been elected by plurality vote to represent population but previously to that they were elected by majority vote to represent property, and in the colonial days they were appointed.

The following is a complete list of all the councilors since the Revolution giving the name and address of each and the year in which he was elected or appointed.

## THE SENATE

The senate began under the constitution and first met in 1784. There were at first twelve senators who represented the five counties that then existed, five senators from Rockingham county, two from Strafford, two from Hillsborough, two from Cheshire, and one from Grafton. In 1793 senatorial districts were created to take the place of county representation and each district elected one senator. The elections during the early years took place in March and the legislature met in June annually.

The senatorial districting of 1793 was changed over in 1803 and several times subsequently. In 1878 the senate was doubled in size. In 1915 the senators were elected by plurality instead of majority vote. The following is a complete list of the senators from the beginning, showing the name and residence of each member of each senate, arranged in the order of districts from 1793, when the districts were created, and previous to that year, in the order of counties.

## DEPARTMENT OF STATE

Articles 66, 67 and 68 of the second part of the constitution provide for a department of state with a secretary of state who is elected biennially by the legislature and a deputy secretary of state appointed by the secretary. In the colonial period there was a secretary appointed by the chief executive, but no deputy. During the revolutionary period and under the constitution of 1784 the secretary was chosen by the legislature and given authority to have several deputies, but in 1793 the constitution was changed to provide for a single deputy.

The following is a list of the secretaries of state from the beginning, together with the term which each served and a list of the deputy secretaries.

## FEDERAL CENSUS OF 1940

**Population of the State.** New Hampshire was one of the original thirteen States. The rural areas grew faster than the urban areas in the ten-year period between 1930-40, according to final figures of the Sixteenth Decennial Census, issued by the Federal Census Bureau. This period has thus reversed a trend towards greater concentration of population in urban areas, which lasted from 1820 to 1930.

The final count of the Sixteenth Census showed that on April 1, 1940, New Hampshire had a population of 491,524, an increase of 26,231 over the 465,293 residents reported in the 1930 census. This change represents an increase of 5.6 per cent as compared with 5.0 per cent between 1920 and 1930.

The population increase in urban areas from 1930 to 1940 was 3.7 per cent, as compared with 8.4 in the rural sections. Urban residents accounted for 57.6 per cent of the State's population in 1940, as compared with 58.7 per cent in 1930. In 1940, residents of urban areas numbered 283,225, while the rural population amounted to 208,299. The census bureau considers as urban areas the incorporated places of 2,500 or more. In New Hampshire, however, it is not the practice to incorporate the towns (townships) until they attain a much larger population; hence in this State the thickly settled towns are also classified as urban on the basis of special requirements. The remaining territory is classified as rural.

There were nine cities of 10,000 or more in New Hampshire in 1940 and two cities of less than 10,000. There were also seven towns classified as urban under the special rule. Fifteen of the eighteen urban places gained population between 1930 and 1940. Rochester, with an increase of 17.7 per cent, was the fastest growing city of those having 10,000 or more population.

All of the ten counties shared in the State's increase between 1930 and 1940. Strafford County, with an increase of 12.9 per cent, had the most rapid growth.

The first census of New Hampshire was taken in 1790, returning a population of 141,885. The population has increased with every census since that time except that of 1870, which showed a slight loss as compared with 1860. The population passed 200,000 between 1800 and 1810; 300,000 between 1840 and 1850; and 400,000 between 1890 and 1900. From a long-range point of view, population growth in the State has tended to become less rapid, although there has been a slight acceleration since 1920. The present population represents a density of 54.5 per square mile. New Hampshire's total land area is 9,024 square miles.

Of the civil divisions known as "grants" and "purchases," 7 have had no population returned at any of the last three censuses and so are omitted from the list of minor civil divisions in Table 4.

\* Coos.—The absence of population in any year indicates that none was returned at that census. Seven civil divisions of this county for which no population has been returned at any of the three censuses are not included in the table; these divisions are as follows: Bean's grant, Chandler's purchase, Crawford's purchase, Cutt's grant, Hadley's purchase, Low and Burbank's grant, and Sargent's purchase. Figures for Pittsburg town in 1920 include population reported for Colebrook Academy grant (15), Hubbard township (358), and Webster township (51).

## PRESIDENTIAL PRIMARY, 1948

A Presidential Primary was held March 9, 1948, for the choice of delegates to the national conventions which were held by the Republican party at Philadelphia, Pennsylvania, the week of June 21, 1948 and by the Democratic party at Philadelphia, Pennsylvania, the week of July 12, 1948.

The Republicans elected four delegates at large and each had full votes in the convention. The Democrats elected sixteen delegates at large, each being entitled to one-half a vote in the convention. Each party sent the customary two delegates from each of the two congressional districts and they had a full vote in the convention, giving the Republicans a total of eight votes and the Democrats a total of twelve votes.

The following summary shows the names of the candidates for delegates at large, their alternates; district delegates and their alternates, with the number of votes for each and the person, if any, to whom each was pledged. The persons elected are designated by asterisks and the names of the persons to whom the candidates were pledged are enclosed in parentheses.

# DIRECT PRIMARY, 1948

Persons voted for at a primary, who received a plurality of all the votes cast by a party, shall be candidates of that party for the office designated in the ballot,—R. L. 33:50.

The direct primary election was held September 14, 1948, with candidates of the Republican and Democratic parties participating.

In the summary immediately following are the full names and residences of the candidates, also their total votes. Then follow tables carrying the vote in detail and giving only the last names of the candidates.

The first tables give by counties the votes for governor. The next tables give by districts the votes for representatives in Congress, the votes for councilors, and the votes for state senators. Then follow the tables showing the votes for county officers, and recounts after the primary.

## REPUBLICAN ORGANIZATION, 1948

The Republicans of New Hampshire in convention assembled on the twenty-eighth day of September, 1948, adopt the following declaration of principles as a guide to definite action during the ensuing two years. We stand for government under the Constitution in which action is based upon the facts, the law and full co-operation between public officers at all levels of government, local, state and national. We pledge the execution of our policies of government with vigor, without favoritism, and with a decent respect for the civil liberties of our citizens.

### National Affairs

With renewed feeling of loyalty to our country and with an appreciation of its privileges, we take pride in having nominated the governors of two of our great commonwealths for the offices of President and Vice-President of the Republic. Their brilliance in leadership and progressive spirit stand out in marked contrast to the fumbling inconsistencies, vague policies, and shattered moral of the present Democrat administration. We must replace irresponsible government by hunch and by guess work with responsible government by knowledge and teamwork. We must apply new ideas and ingenuity to the solution of our perplexing foreign and domestic problems. The worn out fallacious formulas of the present government are failing us now consistently. We must decentralize our huge federal establishment and entrust more functions to Regional subdivisions and to the states themselves. A new national government headed by Dewey and Warren will accomplish these things and bring as well a high morale and progressive spirit to our nation's Capital to replace the tired, broken administration now crumbling and falling apart.

We pledge united support to the incoming Republican administration which must face the present international crisis. The forthright statements on foreign policy and national defense in the platform of the Republican Party give us renewed hope.

### The Republican Record in New Hampshire

We commend the progressive accomplishments of the administration of our outgoing Governor Charles M. Dale. Noteworthy among these are the following:

- (1) Major increase in state financial aid to local school districts and general increase in financial aid to the University of New Hampshire.
- (2) A realistic program for the control of stream pollution.
- (3) The enactment of a more beneficial workmen's compensation law in a form jointly supported by management and labor.

- (4) The establishment of a psychiatric study home for children.
- (5) The creation of a state apprenticeship council to encourage the training of apprentices in skilled trades.
- (6) The beginning of a new program, one of the first in the nation, for rehabilitation of Alcoholics.
- (7) The initiation of a study of the serious problem of sex crimes.
- (8) The enactment of legislation providing equal pay for men and women for comparable work, and the provision for women's jury service.
- (9) General increases in old age assistance.

### **Our Candidates**

In Sherman Adams, our candidate for governor, we present an able business executive who already has demonstrated his capacity for government both in our state legislature and in our national Congress. We strongly endorse the distinguished services of our Republican members of Congress and urge the re-election of Senator Styles Bridges, Congressman Chester E. Merrow and Congressman Norris Cotton. Their records and experience entitle them to our confidence, and in these offices they will continue to maintain the high standards of the Republican Party. We pledge united support to all Republican candidates selected at the recent primary.

### **State Finances**

We favor a careful scrutiny of existing state services for the purpose of eliminating non-essentials and improving the organization and procedures of the administrative departments. We pledge ourselves to the practice of all possible economies consistent with sound management and public necessity. Our state government has been and will continue to be run on a "pay as you go" basis; and if, after the application of all possible measures of economy, it becomes necessary to raise new revenue to balance the budget, we will face that situation squarely and urge the enactment of legislation necessary to provide stable sources of new revenue. To this end, we support the broadening of the tax base. We favor intelligent integration of Federal-State taxing policies and the withdrawal of the Federal Government from those fields of taxation which can be best administered by the states.

We shall insist that the following principles be observed in all fields of state contracting and purchasing:

- a. The functions of spending, inspecting and auditing should be performed by separate officials.
- b. State contracts should be uniform in provision and contain standard specifications.
- c. The award of state contracts to the low bidder by secret competitive bidding should be the standard practice.

d. Payments for contract work should be made on the basis of work done, which has been accepted for the state by qualified inspectors.

e. Contractors should furnish security for the performance of acceptable standards of work.

### **Agriculture**

Agriculture is one of the basic sources of economic strength in our state. The efforts of our farm people create new wealth. Many of our citizens are employed in the raising of farm products and are engaged also in distributing food to the consumer. The possibilities of increased yield of agricultural products were clearly demonstrated during the war even with a shortage of manpower. It is evident that an even greater yield is now possible. The State of New Hampshire must lend its maximum support to the development of its agriculture.

We pledge ourselves to the following program for New Hampshire: the advertisement and promotion of the state's agricultural resources; the encouragement of complete utilization of land resources; extension of soil erosion control and soil conservation practices in a manner which invites maximum landowner participation and minimum governmental control; adequate support of agricultural education and the experimental research programs of the Agricultural Experiment Station and continuance, with adequate financing, of the programs for the eradication of animal, poultry and apiary diseases.

### **Industry**

Industry in New Hampshire provides employment to nearly half the citizens of the state. New Hampshire contains many natural advantages which attract to this state widely diversified industrial concerns. Every effort should be made by the State to retain industries which already are established here. We favor intensification of the program of the State Planning and Development Commission to locate new and diversified industries in New Hampshire and close relations between the Commission and municipalities in the promotion of this effort.

A careful examination should be made of the conditions under which New Hampshire industries must compete with those of other regions. Every effort should be made to correct competitive disadvantages or restrictive laws which place an unfair burden upon New Hampshire firms.

### **Labor**

The Republican Party has always been the champion of free labor. We re-affirm the right of labor to organize and to bargain collectively. Governmental decision must not be substituted for free agreement, and governmental agencies established for the settlement of industrial

disputes must not be turned into instrumentalities to shackle labor. When collective bargaining has resulted in the signing of a contract, we believe that it should be equally binding upon both parties.

The national Congress has enacted legislation affecting Labor-Management relations resulting in a reduction of strikes and man-hours lost and proving beneficial to the general public.

Since national legislation has largely pre-empted the labor relations field, leaving little within the jurisdiction of the states, we favor repeal of the state law regulating union security contracts, which is now almost wholly inoperative under the recent decision of the State Supreme Court.

We favor a strong and effective Labor Department and strict enforcement of the child labor laws and the laws for the safety and health of employees. The State Labor Department should intensify its efforts to reduce the high rate of industrial accidents. The operation of the newly enacted workmen's compensation law should be closely followed, and amendments adopted where need for improvement is shown. We pledge sympathetic consideration of any recommendations for amendment of the unemployment compensation law which may be submitted by the Labor-Industry Advisory Council. The newly created apprenticeship council and the program for vocational education will continue to have our support.

### **Public Utilities**

The Republican Party placed New Hampshire among the first states to establish a Public Service Commission armed with comprehensive powers to regulate the rates and services of public utilities. We favor a policy of firm regulation and a continued review of the laws relating to public utilities to see that the interests of the public are fully safeguarded.

### **Recreation and Natural Resources**

New Hampshire is endowed with the most beautiful countryside in America. Its appeal is universal. All of us who are privileged to live here are shareholders in a rich estate. The preservation of its attractiveness is a challenge to the pride of every citizen.

An investment in roadside beautification and well-kept premises will pay large dividends to all who live here. It will attract visitors to our state who admire our way of life and who wish to share our many natural advantages.

The possibilities of increasing the recreational industry in New Hampshire are almost limitless. The continuation of the program already undertaken to advertise New Hampshire throughout the nation and the development of facilities to accommodate a greater number of prospective visitors will extend an important and reliable source of income. We favor the continuation of the program of the State Planning and Development Commission to enlarge this industry. We urge co-operation between State recreational programs and

private enterprise, development of our winter sports, better use of photography in advertising our advantages, and a more progressive approach by the state in its public relations.

We favor conservation and development of our forest, water and wildlife resources. Public education in all fields of conservation is indispensable. Our timber resources are being rapidly depleted. Arresting such depletion and promoting reforestation have become increasingly necessary in order to protect one of our most valuable natural resources. We favor the adoption of effective methods to promote timber conservation and reforestation. Among others, tax revision and improved cutting practices offer means of accomplishing these objectives. The development of improved forest practices should come from the voluntary efforts of industry itself, with the state and federal agencies co-operating.

We favor vigorous continuance of the existing program for conservation of our water resources by elimination of pollution and pledge our support to the work of the newly created Water Pollution Commission. We favor full development and utilization of the water resources of the state for storage and power development. The co-ordinated program of fish-stocking and wild-life conservation by the Fish and Game Department has our whole-hearted support.

### **Education**

We favor the continuance of the present scale of state financial aid to local school districts.

Since this program means a continuing burden upon all of our taxpayers it is imperative that, in its administration, attention be given to the most effective and efficient use of state-aid monies in improving the standards of education, the establishment of co-operative school districts wherever feasible, and the maintenance of adequate standards of pay for teachers.

We stand for a strong, progressive University of New Hampshire and favor continuance of the present increased level of appropriations for its support. The Teachers Colleges are performing a valuable service to our educational system and deserve adequate consideration and support.

A basic necessity to our educational system is an improved teachers' retirement plan with benefits sufficient to continue to attract and retain high quality in the teaching profession for New Hampshire.

### **Veterans Affairs**

Veterans Affairs have become a concern primarily of the federal government. We pledge state co-operation in any national housing program which may be enacted by the Dewey-Warren administration. We pledge state co-operation, through its existing veterans' agencies, with the national veterans' program. We favor the continuance of the State Veterans' Council, veterans' preferences in state

employment, and the existing trade and vocational schools for veterans so long as need thereof is shown to exist.

### **Public Welfare and State Institutions**

The five state institutions, namely, the state hospital, the prison, the industrial school, the sanatorium and the school for the feeble-minded must be strengthened and improved to meet the increasing demands which are placed upon them. The work of these important institutions can not be neglected. A careful study should be made of the future of each institution. There should be a closer relationship between the institutions and the executive departments. There should also be greater co-ordination of all public welfare agencies of the state. We favor appropriate legislative action in the fields of juvenile delinquency and sex crimes and adequate support for the public social services of the state.

### **State Employees**

An adequately paid state service is necessary for efficiency and high morale among our state employees. We favor just consideration of the request of the state employees for increases, giving due weight to all relevant factors including the increased costs of living.

It has become increasingly difficult to fill key state positions which require technical and professional training, within salary ranges which the people of New Hampshire have been accustomed to pay. These positions must be manned by competent personnel and some adjustments must be made in the classification system.

We favor changes in the classification system to provide for improved methods of selection, transfer and promotion of state employees.

We shall continue to appoint qualified women to policy making posts in the state government.

### **Highways**

Adequate trunk line highways and rural roads are essential to the prosperity of the state. The economic life of any section of the state is dependent in large degree on its accessibility by highways.

We favor the construction of modern highways according to a long-range plan for highway construction based on a study of the relative requirements of the regions of the state.

### **Conclusion**

In conclusion, the guiding aim of the Republican Party of New Hampshire is to make and keep New Hampshire a progressive commonwealth amidst the stresses and strains of this difficult post-war era. To this end, we pledge ourselves to definite action to execute the policies and principles declared in this platform.

## DEMOCRATIC ORGANIZATION, 1948

The delegates of the Democratic State Convention assembled in the Weirs on October 2, 1948, adopted the following platform and pledged the party to its fulfillment:

Since the 1944 Convention, the Republican Party has furnished the State with four years of costly misrule and maladministration. Scandals, among the worst in New Hampshire history, have occurred and they are directly attributable to the Republican Administration. It must be clear to the thinking people of New Hampshire that a shift from one Republican clique to another merely promises to continue the same record of administration in the interests of favored contractors and vested powers, while the general welfare, which is synonymous with the best interest of the state as a whole, goes begging.

A deficit in the State treasury during the most prosperous era of our history; shattered morale in the State's civil service and its institutions; such glaring evidence of waste and favoritism as are demonstrated by the Story Case—all add up to gross maladministration. The clear need is for such fundamental change that only the repudiation of the Republican Party will serve. New Hampshire, as it values progress, efficiency and decent, honest government, is ready for a new day and the Democratic Party at the head of its government.

We pledge our support to the traditional progressive principles of Democracy on the state and national levels. We pledge ourselves to support the national Democratic platform in its entirety and the State platform set forth below.

### Conduct of State Business

With New Hampshire government operating at an annual deficit of more than \$1,500,000, the Democratic Party pledges itself to the economical conduct of State business, without waste, without favoritism and without duplication. For the past two decades, Republican administrations have made a habit of wasting millions of dollars, until the State's financial condition is most critical.

The Democratic Party believes that once this gross misuse of state funds has been eliminated, the state can finance most of its normal business without additional taxation.

Typical of the Republican waste which has brought New Hampshire to the brink of financial crisis is the so-called "Story Case." In only two years a Republican administration admits it has paid a Republican contractor \$630,000 for \$300,000 worth of work performed, largely without bids. The Republican corruption has been compounded many times by Republican failure to take any vigorous and immediate steps to clean its house.

Specifically, the Democratic Party urges immediate grand jury investigation of the Republican administration's contract scandal. Republican failure more than six months ago to instigate such an investigation is proof positive of Republican approval of bad financial business.

The Democratic Party pledges itself to the principle of open competitive bidding in both purchasing and capital improvement.

The Democratic Party will insist that state work be performed within the limits of the sum established by contract. Under Republican administrations, contracts are being exceeded by many thousands of dollars each year.

The Democratic Party supports the principle that a state should pay the lowest possible rate for quality services. Republican disbelief in this principle for instance recently cost the taxpayers an unnecessary \$70,000 in engineering fees for the Toll Road.

### Labor

The Democratic Party, more than ever in the light of the anti-labor record of the Republican Congress, remains the friend of labor. If there is to be any protection for the workers' living standard, it must come from our party. On the state level the Republican Party sat idly and incompetently by, despite clear warning, and permitted the Textron crisis to develop in Nashua, a crisis that has robbed labor of hundreds of jobs and much of its hard-earned savings. The Republican party also jammed through the Willey Bill, the most restrictive labor law in the history of the State. In a meaningless political gesture, the Republicans now advocate the repeal of this vicious law, cunningly aware that the Taft-Hartley law, backed by the national Republican organization, will continue to cripple the labor movement in this country and state. The Democratic Party, therefore, specifically recommends:

1. Unremitting efforts to repeal, not only the Willey Law, but the Taft-Hartley Law.

2. Extension of the influence of *bona fide* trade union leaders in the selection of the State Commissioner of Labor, in order that Labor shall at all times have a man in the Administration who is fully aware of Labor's problems and viewpoints.

3. Increase in the amounts and duration of workmen's unemployment compensation in order to offset the burdens of Republican inflation. Specifically, maximum payments should be increased from \$25 to \$30 weekly. Uncertainties arising under the new Workmen's Compensation law should be clarified.

4. Reconstruction of the personnel and motivations of the State Planning and Development Commission so that this important State agency shall pursue its purpose of industrial development with an eye to the welfare of Labor as well as for the interests of management.

5. Enlargement and expansion of the Bureau of Labor in recognition of the needs and interests of the more than 150 local unions in the state and of the 150,000 industrial workers.

### **Business and Industry**

While the nation as a whole has been experiencing unprecedented prosperity, New Hampshire, largely through the incompetence of the Republican Administration in Concord, has seen one of its major cities plunged into a virtual depression. The 66 per cent close-down of Textron in Nashua in a period of two years proves the Republican regime incapable in the very fields it claims greatest competence.

New Hampshire under a Republican administration stands well below the New England average in terms of per capita income. No major acquisition of new industry has been recorded, with the possible exception of General Electric in Somersworth. New Hampshire is consistently falling behind the national and New England rate of progress because the Republicans have been more interested in preserving the status quo of business power than in moving ahead. There is good reason to believe that our Republican dominated state has turned a cold shoulder to industries which might bring a strong, well organized labor force into New Hampshire.

### **New Steel Industry**

More than a year ago Governor Dale was quoted as saying that he would organize a committee to sell New Hampshire as a location for a major steel plant. Nothing has come of that. Despite the fact that there has been much evidence that the steel industry is contemplating an Eastern plant, the Republican Administration has shown no initiative in promoting New Hampshire as the home of such an industry, which would mean so much to the economy of the state.

The Democratic Party pledges itself to work unceasingly for such major additions to our economic base as a steel industry, while actively promoting even greater variety and diversification in new industries.

### **Power Resources**

The Democratic Party also promises that it will undertake to place the public interest ahead of that of the private utility powers in its approach to the full utilization of the state's water resources. These resources have great undeveloped potentials for the creation of new industries and the prosperity of our people. For example, due to the selfish efforts of the utilities, the great Franklin Falls dam does not generate power for the wheels of industry. We pledge ourselves to work for the constructive development of all our water resources and for an end to the high-price, scarcity power policies pursued by the Republicans for so many years. We urge the creation of a Merrimack Valley Development authority and the immediate adoption of the St. Lawrence Waterway project under public control.

### **Public Service Commission**

To obtain the end of cheaper power and a better administration of our water resources and other public utilities in the public interest we suggest the following reforms:

1. Reconsideration of the salary, composition, and tenure of the Public Service Commission. We urge the creation of the office of a people's counsel with power to initiate rate investigation before the Public Service Commission. This officer should be endowed with all authority necessary to represent the interests of the consuming public and should be a full-time employee of the state.

2. A careful reconsideration and necessary revision of all the statutes applying to public utilities.

3. An appraisal looking toward reform of the Public Service Commission to determine if that agency has zealously guarded the public interest. The Commission's compliant attitude in the recent telephone rate cases certainly invites such scrutiny.

### **Wilder Dam**

The Democratic Party pledges itself to join the state of Vermont in seeking for the owners of the fertile farmlands of the Connecticut Valley full justice and protection. The generation of power must not be allowed to override the interests of the people.

### **Agriculture**

New Hampshire must come to the aid of agriculture, its third largest industry. The Republican Congress failed to provide adequate funds for expansion of rural electrification and failed to provide funds for soil conservation, and failed to provide funds for expansion of the school lunch program.

To repair this damage, the Democratic Party pledges its support to the following:

1. Help dairymen break the monopoly of the milk industry, which forces them to sell much of their milk as surplus at ruinously low prices.

2. Improve the state's animal disease eradication program, which is today administered more by whim than wisdom.

3. Develop types of agriculture best suited to the New Hampshire geography and climate. By law the state must spend a share of its advertising funds on agriculture. To date the Republican administration has not complied with this law.

4. Support and institute a program of conservation of the state's dwindling natural resources, which have been ravaged particularly by pulp and paper interests. We pledge our support to measures favoring reforestation and the enactment of tax laws to encourage this program.

5. Assist in the most practical manner possible in the improvement of rural roads.

o. Support the experimental research programs of the Agricultural Experiment Station, the source of new information for the advancement of agriculture.

### **Housing**

Our people are still suffering from the housing shortage, which discourages new industry and cripples efforts of young men and women to make normal lives for themselves in this state. What few housing units have become available since the war have been prohibitively priced.

The blame for the continuing housing shortage lies primarily with the national Republican Congress which emasculated rent control and pigeon-holed the Taft-Ellender-Wagner public housing measure.

In New Hampshire, despite enactment of a Democratic sponsored state aid housing law, the situation has not been relieved. The State Housing Authority has shackled New Hampshire communities with restrictive red tape which has discouraged all but two cities from taking advantage of the law. Thousands of dollars of public funds have been expended and not a single dwelling unit has been built. We urge speedy and efficient carrying out of the provisions of the State Housing Law.

The Democratic Party pledges itself to do everything in its power to force passage of the Taft-Ellender-Wagner Housing Bill.

### **Revenue**

The Democratic Party is convinced that the elimination of the waste, inefficiency and favoritism illustrated by the Story Case will make the tax dollar go much further. With such reformed administration, we believe that the normal business of the state can be virtually cared for without additional taxation.

However, in order to cover possible emergencies and some new social services and benefits, we recommend that the legislature be given wider powers of taxation. We are opposed to a general sales tax.

### **Disproportionate Representation**

The Democratic Party emphatically repudiates the proposed amendment to the Constitution which would unfairly increase the representation of New Hampshire small towns in the General Court at the expense of our large towns and cities.

This Republican proposal strikes directly at the cities which are already shackled by Republican controlled finance and police commissions. It creates disproportionate representation, and is not in the democratic tradition. It is a sad commentary upon Republican morality.

### **State Employees**

The Democratic Party recognizes that the 3500 state employees are seriously underpaid, and that as a result the morale of the state administration has dwindled to the danger point.

We favor a general overhaul of the state employment picture, including establishment of a merit system, where jobs are won and kept on merit alone.

We favor adjusting salaries in such a manner that the lowest paid state employees receive the greatest benefits, with an average increase of 20 per cent.

The Democratic Party deplores the refusal of the present administration to meet with the employees' association to discuss their problems.

The practice by the present administration of failing and even refusing to fill vacant offices or to re-appoint well qualified men is an example of political pettiness without parallel. Specifically, the practice destroys the morale of affected departments and contributes to the degeneration of efficiency which has characterized Republican Administrations.

### **State Institutions and Social Services**

In a decade of Republican misrule many of our state institutions, such as the Laconia State School and the State Hospital at Concord, have become understaffed and overcrowded. Money that might have gone to the assistance of the unfortunates and to adequate salaries for the staff of these institutions has gone into the pockets of political favorites.

The Democratic Party promises to correct this misrule and to rehabilitate these institutions in order to place New Hampshire on a par with the more progressive states.

We also urge the extension of the state's health services. We specially urge the passage of a bill to make fluorine dental treatments available to every school child to prevent teeth decay.

We advocate increases in welfare and old age payments to meet the rising costs of living.

### **Education**

The Democratic Party urges continued state aid to education in New Hampshire and immediate passage of the Federal Aid to Education Bill which would help finance a much needed program of school building and centralization of rural educational facilities.

Despite a decade of ever-increasing national prosperity, under Republican administrations New Hampshire teachers earn less today than 80 per cent of the teachers average throughout the country. We are losing good teachers to other states because retirement benefits are wholly inadequate.

The Democratic Party favors a program whereby all teachers will receive optimum security and greater retirement benefits.

### **Recreation**

Despite the fact New Hampshire finds a major source of its income in its tourists and recreational opportunities, the state has lagged behind programs in other states. The far more rapid production of fish for the stocking of the Maine streams is placing New Hampshire at a disadvantage in its competition for the tourist's dollar.

The Democratic Party therefore promises increased attention and efficiency in correcting this situation. It proposes to enlarge the Fish and Game propagation facilities of the state. To that end we advocate the allocation of a substantial amount from general funds over and above that received from licenses for the use of the Fish and Game Department to be used in maintaining and expanding the fish hatcheries and game farms of the state.

### **Highways**

Our state roads are in deplorable condition, due to lack of planning. If New Hampshire is to prosper, if tourists are to continue to come into our state, this situation must be remedied.
